

Psychosocial Action Plan

The business area is to complete an action plan to address any gaps found after reviewing the recommended controls in the Corporate Psychosocial Risk Assessment and taking into account the ATO's Psychosocial Risk Framework.

Completed action plans must be kept as evidence of mitigating actions. For more information refer to the Work Health & Safety SharePoint or for assistance please contact the Work Health and Safety mailbox.

Psychosocial risk	Action to control risk	Resources to support action	Responsibility <i>Name & position</i>	Timeframe to implement control & assess effectiveness
